New York and Charleston Un-
easy Over Cannonading at
Sea—Government Oper-
ators Refuse News.

HAS A BATTLE TAKEN PLACE?

Troops Ready to Sail for Cuba.
Mosquito Fleet Ordered to
Convey Troops for the Cu-
ban Invasion.

GENERAL FITZHUGH LEE GOES TO CUBA.

New York, May 6.—This city
is excited over heavy firing
which took place at sea this
forenoon. The cause is unknown.
The operator at Sandy Hook re-
fuses to give any information
according to government orders.

Charleston, S. C., May 6.—Heavy
firing was heard off this port this
forenoon. It lasted forty minutes.
What is the cause is only a matter of
conjecture.

Norfolk, Va., May 6.—The Mos-
quito fleet has received orders to sail
tonight for Tampa, Fla., to convey
troops to Cuba.

Key West, May 6.—The first troop
ship, with officers and equipments, is
ready for sea. The officers refuse to
give the time for sailing.

DESTROY SPANISH FLEET.

Washington, May 6.—Within a
day's sail of Porto Rico, and within
a comparatively short distance of the
United States, the armor-clad of
Rear Admiral Sampson's squadron
are ready to leap upon the enemy as
soon as his whereabouts are learned.

Patrolling hundreds of miles of
ocean to the east of Porto Rico, on a
degree of longitude chosen by the
naval war board, are the eyes of
Rear Admiral Sampson—the scouts
whose duty it is upon the appearance
of the enemy to hasten to a cable
station to inform the navy depart-
ment of what they have seen, and
then to speed under all steam to the
point where Rear Admiral Sampson's
fleet is waiting to impart to its com-
mander the news they have obtained.

Authoritative information obtained
shows that in sending Rear Admiral
Sampson with his armor-clad away
from Key West, the naval war board
was guided solely by the feature of
its plan of campaign which requires
the destruction of the Spanish fleet
before the government shall enter
upon the reduction of Porto Rico or
any extensive invasion of Cuba is set
on foot.

**SAMPSON'S
SEALED
ORDERS.**

The Destination of His Fleet of
Ironclads Is a Profound
Secret at the Navy De-
partment.

PORTO RICO MAY BE THE OBJECT

The Greatest Naval Battle of Mod-
ern Times May Be Fought in
a Few Days by Our At-
lantic Squadron.

THE OREGON MAY TAKE PART IN IT.

Washington, May 6.—It is
practically admitted here by of-
ficials at the Navy Department
today that Admiral Sampson has
gone to capture Porto Rico.

Tampa, Fla., May 6.—The activ-
ity today is due to the plans to invade
not only Cuba, but Porto Rico as
well. The government's policy is
unfolding itself gradually. Develop-
ments of a most sensational character
may be expected at any moment.
The best opinion that is not absolute-
ly authoritative is that an invasion
has been determined upon, and like-
wise a movement against Porto Rico
for the purpose of taking the latter
place and holding it before the Span-
ish fleet can reach it. This will shut
off the Spanish from every avenue of
coal, and make their flying squadron
helpless after reaching American
waters.

Washington, May 6.—So far as
the public is concerned the move-
ments of Sampson's fleet since it left
Key West Wednesday morning are
veiled as completely as conditions at
Manila. Not an inkling, officially,
can be obtained of the objective point
of the North Atlantic squadron. It
is guessed—but it is only a guess—
that it is sailing for Porto Rico.
This belief, however, generally pre-
vails in Washington.

Madrid, May 6.—Fears are ex-
pressed that the United States fleet
has gone to capture the capital of
Porto Rico.

It was announced officially yester-
day that the Spanish steamer Al-
phonso XIII., said to have troops
and a valuable cargo, has arrived at
Porto Rico. It was feared she
would be captured.

London, May 6.—A dispatch to
the Daily Mail from Key West, sent
by way of Tampa in order to escape
censorship, asserts of positive knowl-
edge that Rear Admiral Sampson's
fleet will steam at full speed to Porto
Rico, either to destroy or to occupy
the coaling station as a naval base
before the Spanish squadron arrives,
and then put to sea and try to engage
the Cape Verde fleet.

Washington, May 6.—Persons
who, from their official position,
might be supposed to share the confi-
dence of the administration, are
credited with the statement that Ad-
miral Sampson has gone to seize
Porto Rico, and this statement is
made after conference with the ex-
ecutive. On the other hand, it is as-
serted with almost equal positiveness
that the fleet has gone to meet the
Oregon and bring her in safely to the
north. Still another report is to the
effect that the Admiral has gone to
seize Matanzas, to be used as a base
of operations.

**SPAIN
FEARS HER
SOLDIERS.**

Mutiny and Revolt Appearing in
the Army, Causing the
Throne and Cabinet
to Tremble.

WEYLER AND CARLOS LEADERS.

Half-Hearted Response Given by
Soldiers When Called Upon
to Shoot Down the
Rioters.

SPAIN'S DYNASTY NEARING ITS END.

Washington, May 6.—Spain is
afraid of her soldiers. Mutiny and
revolt are appearing. Troops are be-
ing called on to shoot down rioters
in provincial towns, but the response
to the calls is half-hearted. Rumors
of the feeling in the army are reach-
ing Madrid and the throne and cabi-
net are trembling for the fearful cli-
max which seems sure to come in a
few hours.

Don Carlos denies any complicity
in the plot to stir the army to revolt.
Weyler is not entering any denials
concerning his position, but it is be-
lieved that the machinations of the
two, directed in different channels,
are working together to produce a
terrible result.

Madrid is a volcano. The dynas-
ty is trembling. As more details
come from Manila and are allowed to
become public the panic increases.

The smaller towns seem to be in a
more terrible state of frenzy than
Madrid. At Gijon, on the Bay of
Biscay, where the rioting seems worst,
the artillery has been called out.
Already have the infantry troops fired
on the street mobs in self-defense, it
is asserted, but this attack seemed
only to increase the fury of the peo-
ple. No news has come as to the
damage done to life and property in
Gijon, but it is said that the situation
there is even worse than will be made
known.

The censor is doing his work well.
He is allowing only the most meager
reports to go out, but one straight
hint appears in what escapes his con-
demnation. This is the fact that in
the provinces the rioting is caused by
hunger. Bread is increasing in price.
Other provisions are hard to obtain
and as a consequence the people are
allowing political grievances to pass
aside and are rioting from hunger and
attacking the stores because of the
almost unheard of increase in the
price of bread.

Bands of armed men are patrolling
the towns, drawing to them all riot-
ous persons who are inclined to take
part in the demonstrations. The one
cry is against the cabinet, the dynasty
and the price of food. These rioters
are seizing railroad stations and burn-
ing cars, private houses and cafes.
At Talavera the convicts in prison
would have been released and joined
to the rioters but for the courage of
the guard, who stood off the mob
with threats of a bombardment.

Governor-General.

HAWAII MAY BE ANNEXED.

But a Few Days and Porto Rico
Will Be Ours—Admiral Samp-
son's Guns Will Attend

AND THUS THE UNITED STATES GROWS.

Washington, May 6.—It is un-
derstood that President McKinley is dis-
cussing the feasibility of appointing
Gen. Fitzhugh Lee as military gov-
ernor for Cuba; Gen. Sewall for the
Philippines; and Gen. Merritt for
Porto Rico, in case all of these Span-
ish possessions are captured and pass
into the control of the government.

HAWAII.

Washington, May 6.—It looks
this evening very like America will
shortly annex Hawaii. The question
came up in the house of foreign
affairs committee yesterday, and a
strong sentiment in favor of annexing
the islands, owing to this country's
need of them as a coaling station,
was developed. Congressman Al-
Berry spoke on the subject. If the
committee reports favorably, the
house will almost certainly act favor-
ably. Action in committee was
postponed until Tuesday.

THE PHILIPPINES.

Washington, May 6.—There is no
doubt whatever that the government
has heard from Manila through the
state department. No official infor-
mation will be given, however, until
Admiral Dewey makes his official re-
port to the navy. Any information
which does not come direct from
Secretary Long is not regarded as
official.

DALTON, THE TAILOR

The official report is expected now
at any time. The dispatch to the
state department has come through
British diplomatic service. It is
sufficiently reliable to cause the gov-
ernment to fit out hospital ships for
the Philippines, and also to begin
preparations for a program for
policing the island.

Gen. Merriam will be in command
of the troops, and the fifth and sev-
enth cavalry and fourteenth and fif-
teenth infantry will join the nucleus
of the troops sent. The western
state militia will probably be utilized
to reinforce the regular army. The
offer was made to General Lee to ac-
company the troops and assume com-
mand as governor general, but Gen-
eral Lee, however, prefers the chances
of playing a more important role in
Cuba.

SPANISH DYNASTY DOOMED.

London, May 6.—A letter dated
May 2, just received from Madrid,
says:

Gen. Weyler and Senor Romeo y
Robledo, the former minister of ju-
stice, are bound to come to the front
row, as "a military furor has taken
possession of the nation and the
Spanish dynasty, as well as the gov-
ernment, is doomed."

SUPPLIES FOR DEWEY.

Washington, May 6.—The secre-
tary of the navy has ordered Naval
Constructor William L. Kapps, now
at the Union Iron-works, San Fran-
cisco, to proceed at the earliest mo-
ment on the steamer City of Pekin,
just chartered by the navy depart-
ment, to meet Commodore Dewey's
squadron at Manila. Mr. Kapps will
select from the Mare Island force a
number of the most experienced and
intelligent workmen to take with him,
in addition he will place on the Pekin
a full supply of machine tools, steel
plates and all of the materials that
are likely to be needed to make tem-
porary repairs to a ship in distress.

The purpose of the department in
making this order is to put Com-
modore Dewey's fleet at the earliest pos-
sible moment into first-class condi-
tion, repairing all the damage sus-
tained in the engagement, and in ad-
dition to this, raise and repair any of
the Spanish ships either surrendered or
sunk in the engagement that are
capable of being navigated again.

REVOLUTION STARTED.

New York, May 6.—A special dis-
patch from Kingston, Jamaica, as-
serts that official dispatches passing
through that city report that there
have been anti-Spanish uprisings in
Porto Rico and that a revolutionary
movement is well under way. The
dispatch has not been confirmed.

Washington, May 6.—Capt. H.
Glass has been placed in command
of the Charleston, now being fitted
for sea at the Mare Island navy yard.

LEE GOES TO CUBA.

Washington, May 6.—Major Gen-
erals Lee and Wheeler today took
the oath of their office, and were given
their commission. They will be given
commands immediately. General
Lee will go to Cuba and General
Wheeler will be located in the South.

Key West, Fla., May 6.—One of

while trying to run the blockade and
get into Havana.

The La Fayette was loaded with
contraband of war and had on board

Washington, May 6.—The admin-

Capt. Sigsbee on the bridge, left
Cramp's ship yard at 8:20 yesterday

Rome, May 6.—The Pope has ad-

Spain to vanquish the great Ameri-
can people. The Pope urges Spain
to abandon the war and to make
peace as best she can.

London, May 6.—The Standard

official quarters that the Spanish
queen and her government favor
some arrangement to lead to an early
ending of the war.

FRIDAY, MAY 6, 1898

WHAT OF THE FUTURE?

The rapidity of passing events has brought this country face to face with complications that have been anticipated only by close students of the spirit of the times. The whole territorial expansion of this country, which in every case has been amply justified by surrounding events, has at the time of its accomplishment been bitterly opposed in many quarters and this opposition has been based on the assumption that territorial aggrandizement was contrary to the ideas of our fathers and liable to embroil us in foreign complications.

Our national territory has however expanded until it far exceeds the wildest fancy of any of the republic's founders, but there is no one who today doubts the wisdom of any of the acts that have increased the area of our national domain.

In the past, however, our territorial expansion has brought no foreign complications, but have rather lessened the possibility of conflicts, either diplomatic or by arms, with other nations. But the success of American arms in the Philippine Islands has demonstrated the fact that "circumstances alter cases" in national history as well as in that of individuals. None of our national sentiments or principles is more dear to the American people, than the Monroe doctrine. But that historic doctrine must now be cast aside or the United States must prepare to abandon the idea of territorial expansion in the Pacific ocean which now seems almost inevitable.

The eyes of the whole world are turned towards China. The great commercial field of the future seems now to lie in that quarter of the globe. The United States, being a commercial nation, will not be able to keep clear of the complications that are likely to arise there. Furthermore the capture of Manila has made this nation at once a factor and it cannot now refuse to act the part

that it has been compelled to assume as one of the necessities of war. The natives of the Philippines are struggling for freedom. The outrages perpetrated there by Spain are as flagrant, as cruel and as odious as any that have occurred on Cuban soil. Only the remote distance of the Philippines from the center of the civilized world has caused the horrors of Spanish rule there to be less known than those that have aroused the sympathy of the world for Cuba. Whatever may become of the Philippine Islands, they cannot be given over again to Spanish rule. Humanity forbids that. Thus, arises the question whether we shall hold them or transfer them to some other power or establish an independent government there.

There are many reasons why the United States should retain them. They lie midway between China and Australia. They contain 150,000 square miles of rich country, some of the richest land on the face of this earth. They have a population of upwards of 8,000,000 people, who would contribute vastly to the commercial expansion of this country. It was a war necessity that this republic should capture the Philippine Islands and one thing is sure and that is that we shall have there a permanent naval coaling station, if nothing more. This is a foregone conclusion.

Some of our statesmen who have bitterly opposed Hawaiian annexation now incline favorably toward that action. It is apparent now without argument that the Hawaiian Islands are necessary to our future well being among the nations of the earth. Moreover, it is equally apparent that inasmuch as the Hawaiian Islands are only 2,000 miles distant from our coast, they are not near enough for the maintenance of our Asiatic naval station. After coaling at Honolulu, our vessels would be obliged to steam several thousand miles to reach Asiatic territory.

As the stars and stripes now float over the Philippine Islands it may be but a few days when they will also float over Hawaii, Cuba and Porto Rico, and the question will then arise, what shall we do with them?

He has since been employed by the State Department in preparing a new edition of Wharton's International Digest. As soon as the President determined to elevate Judge Day to the Premiership of

THE BATTLE AT MARIEL.

The First Hostile Meeting of Spaniards and Americans on Land—Many of the Dons Were Slain.

Supplies for the Insurgents Landed Under the Protection of the Wilmington's Guns. Battle Was Warm.

Key West, Fla., May 6.—The first lot of supplies shipped for the Cuban insurgents has been successfully landed and turned over to Gomez's men.
The supplies left here on the government tug Leyden Tuesday. The gunboat Wilmington conveyed the tug, which ran close to the Cuban coast near Mariel. The tug was escorted by a body of Spanish cavalrymen, who swept down to the shore and began firing at the tug with rifles.
Meantime the Wilmington had run into range and opened on the cavalry with her small guns. Several shells landed among them, killing and injuring a large number.
The remainder attempted to scatter, but the insurgent force which had come to escort the supplies inland, fell upon the spaniards and few escaped alive. The supplies were then landed and turned over to the insurgents.

New York, May 6.—The Mail and Express Key West correspondent cables the following account of a small expedition from the tug Leyden, in Cuba:
The tug left Key West Monday afternoon. At daybreak, Wednesday, her men made the first attempt to land an interpreter to confer with a party of Cuban insurgents, who were waiting on the beach. While this conversation was being held the people of the Leyden discovered about fifty Spanish cavalrymen coming down from a hill toward the shore as if reconnoitering.
The Leyden signaled danger to the insurgents, who took to the bushes. Up to that time eight cases of Winchester rifles had been landed. Seeing the cavalrymen, the Leyden's boat returned alongside, lying about a quarter of a mile off shore. The cavalrymen leveled rifles at the tug, but hesitated about firing. The insurgents in the meantime had opened fire, driving the cavalrymen back up the hill, firing as they fled.
The cavalrymen returned shortly with reinforcements. They paid no attention to the insurgents, but began a sharp fusillade at the tug. Bullets flew around the tug so fast that the lookout at came down. The Leyden, seeing no chance to land the ammunition just then, picked up the men she had landed and steamed back to the flagship off Havana, reporting it would be impossible to land the cargo unless protected.
The gunboat Wilmington was immediately ordered to help the Leyden. On returning to the landing point, the Wilmington held off shore about a mile and a half, the Leyden going in close to the beach. The tug was signaled by the insurgents that the coast was clear.
Manned by four men, a boat then left the Leyden with ammunition and two large boxes of dynamite. When a short distance from the beach a man aloft on the Leyden sang out that the cavalry were coming down the beach again in strong force.
The Leyden then signaled the Wilmington, and the latter came a trifle closer to shore, and with stern facing the beach, fired four shots from her four-inch rapid-fire gun. The cavalrymen retreated, and the boat's cargo was then landed. While waiting to attack the cavalrymen the Wilmington fired at a block house further down the beach. There were some fifty Spanish regulars sitting on top of this block house watching the Leyden and the insurgents. The Wilmington's first shot went wild, the twelfth and last shot was a bull's-eye. When the smoke cleared away from the block house, the men and all had disappeared as though swallowed up. The Spanish colors that had flown from the house were seen up in a tree, where a shot had driven them.
The Leyden and Wilmington returned to the flagship, and the former then came here. There are dozens of holes in the tug's smokestack from the cavalrymen's bullets.

FOR WARLIKE ELKS.

Harrisburg, Pa., May 6.—Meade D. Detweiler, grand exalted ruler of the B. P. of Elks, issued an official order to subordinate lodges yesterday with references to the stand to be taken by members of the order during the present war with Spain. The resolution and suggestions of the grand exalted ruler are:
That all members of subordinate lodges, who at their country's call, have enlisted in the services of the United States government at the sacrifice of their business and private interests, shall be protected during the term of service.
First—That all dues incurred during the period of their enlistment shall be remitted and not charged against them.
Second—That during their absence a special committee of three shall be appointed to ascertain the circumstances of those dependent upon them for a livelihood, to provide them with such livelihood, if necessary, during the term of enlistment of our brothers.

WANTS TO GO TO CUBA.

Washington, May 6.—Maj. Gen. Joseph C. Breckinridge is awaiting assignment by Gen. Miles. He naturally hopes for a command and orders to go to Cuba, and it is probable that his wish will be gratified, although there is a possibility of his being retained as chief of Gen. Miles' staff.
If Gen. Breckinridge is assigned to a command Kentucky will be represented on his staff. Capt. David Castleman, of Louisville, and Desha Breckinridge, of Lexington, have been mentioned in this connection, and one of the gentlemen will probably receive the honor.

MAY MARCH OVERLAND.

Anderson, Ind., May 6.—Col. Durbin attending to the business affairs of the Indiana militia for Gov. Mount, has received word from Washington that the Indiana troops would not be called away from Indianapolis for two weeks. They will be taken to Chattanooga, instead of Washington, and if not needed in a hurry will march overland.

REMEMBER THE MAINE.

Written for the Paducah Daily Sun.
A gray streak drops through a rift in the clouds,
'Tis daybreak, a sailor shouts from the shrouds,
And then from where the land and waters meet
Comes the hiss of a shell
And the clang of a bell
And the Spaniards are battling with brave Dewey's fleet.

Soft roll the waves on Manila's low shore
As gun answers gun—to sound ever more,
'Tis liberty's eagle that screams o'er the slain,
As the great guns roar
From sea and from shore
And aloft flies the signal "Remember the Maine."

Long years of conquest have made the Don proud
And his blood is as blue as the blue of the cloud,
His courage unquestioned, but oh, what a stain,
And those grim Yankee tars
Send the deadly shots home. They remember the Maine.

It is finished, the battle is done
Another step forward for freedom is won.
Green be the laurels for living and slain,
For the gallants at sea
Beneath the flag of the free
For our bold Yankee sailors who remember the Maine.

May 5, 1898.

KNOW NOTHING ABOUT IT.

The mayor and other city officials were tickled today over the article in the Register, stating:
"It is understood that an understanding among the city officials has been effected by which all the saloons in the city will be closed next Sunday. A great pressure has been brought to bear, it is said, on those selling inside of the city relative to keeping open on Sunday. The saloon men of the city are much worked up by the new order. The result of the contest will be watched with considerable interest."
The officials say they know nothing about it being "understood" that an understanding has been effected, and that so far as they know, the saloons are always closed on Sunday. According to the above, the saloons have heretofore been kept open on Sunday with their knowledge and consent, and the saloon men have been violating it regularly, without having to pay a fine.

MOLASSES SPILLED.

The river was very rough this morning, but all the boats managed to make their regular trips.
An interesting sight was witnessed aboard the Sunshine about 10 o'clock. The Joe Fowler ran in to her very heavily, on account of the wind, and stove in a barrel or two of molasses. The sticky fluid soon covered the deck an inch deep for several yards, and the rowsters were busy with tin cans, catching it for future use.

POLICE COURT.

Six tramps were arrested out near the "Y" early last evening by Chief Barber and others. They were arraigned in the police court this morning, and all released except Bob Campbell, a boy who escaped from the chaingang yesterday afternoon while acting as water carrier, having three more weeks to serve. He was ordered to finish his sentence.

WILL LIVE IN PADUCAH.

Mr. W. W. Stewart has sold his property in Livingston county, and come to Paducah to spend his remaining days with his son, Dr. P. H. Stewart.
Mr. Stewart had lived in Livingston county nearly all his life, and was one of her best known men. Paducah is proud to welcome him as a citizen.

MAY LOSE HIS SIGHT.

Mr. C. A. Torrence, the well known grocer, has a very sore eye, and it is feared will lose his sight. It has been growing worse for several days, and while it may be saved, the prospects are now not very bright for it. His many friends will wish him a speedy recovery.

CIRCUS DAY.

The Clark show arrived on time, but found a rather damp reception. It is transported on wagons, and one of its curiosities is a wooden-legged man who walks a tight rope.

COUNCIL MEETING.

The council meets tonight in called session to take up the matter of Assistant Engineer Lyon. There may be a few other things considered.

NO SHOOT TODAY.

The Gun club's shoot, on account of the weather, had to be declared off today. It was to have taken place this afternoon at La Belle park.

SEVEN O'CLOCK SHARP.

The Soldiers Will Leave Paducah Tomorrow Morning for Lexington—No Program Yet Arranged.

BIG CROWDS TO SEE THEM OFF.

Dr. Frank Boyd, of This City, Will Apply for the Place of Surgeon of the Third Regiment.

OTHER MILITARY NOTES OF INTEREST.

Company K will leave tomorrow morning on a special train for Lexington at 7 o'clock sharp. An effort was made to have the time changed, but without success, and they will all go then without fail.

A drill was held this morning in the old Noah's Ark building, which has been used for headquarters since the company was mustered in.

The boys will assemble at the armory at 6 a. m. tomorrow, Langstaff's whistle to blow, and the cannon to fire. The march to the train will then take place.

The price of good Kentucky horses is going up. Government agents are in Kentucky buying up horses for use by the U. S. cavalry regiments, and the demand is brisk for good, sound saddle horses. The nation naturally looks to Kentucky for the best horses for cavalry purposes, and the old commonwealth stands ready to furnish them in any desired quantity and quality.

Although the president has decided to mix up the volunteer troops much as possible instead of brigading them by states, a strong effort is being made to have the Kentucky troops brigaded together. This can be accomplished, if at all, only by absolute harmony and cordial co-operation among the officers and men.

The president may be prevailed upon to make exceptions in certain cases, but he prefers to see a Southwestern regiment brigaded with one from the North, and the destination in section of troops destroyed.

It will be some time before the equipment for the Kentucky soldier boys can be forwarded. The war department is rushed. The equipment will be sent to states in the order in which they are mustered in.

Second Lieutenant Hense Harris was pleasantly surprised last night at the regular meeting of the Elks Dr. C. E. Whitesides, in a neat little speech, presented Mr. Harris with a fine pistol in behalf of himself and Paducah lodge, and expressed to Mr. Harris the best wishes of the lodge in his service to his country.

Mr. Harris replied in a few well chosen words, making the incident quite pathetic. He is the only member of Paducah lodge who has enlisted.

Dr. Marmaduke Dillon, who was until a few months ago hospital surgeon at the Illinois Central hospital here, is now at New Orleans awaiting a call into the navy as surgeon. He enlisted several weeks ago.

Col. Gaither has appointed Mr. Robert Mitchell, of Cynthia, band leader. He will report today and select his own men.

Gov. Bradley's action in appointing Lieut. Whipple a lieutenant colonel in the Second regiment under Col. Gaither is generally approved by the officers and men of the regiment.

The announcement that commissioned officers will have to undergo a physical examination for enlistment in the volunteers, will come as a surprise to a good many. It is thought, however, that most of the officers will be found up to the requirements.

The secretary of war has decided that the second lieutenants to be appointed to the army from private life shall not be younger than 21 nor older than 30, and that they shall undergo a quite rigid examination. The increase in the army will make necessary about two hundred such appointments and there are many applicants.

Dr. Austin Bell, of Hopkinsville, may be appointed surgeon of the Third regiment.

The present surgeon, Dr. D. M. Griffith, of Owensboro, has sent his resignation to the governor.

Dr. Frank Boyd, of the city, has applied for the position of surgeon of the Third regiment, and leaves tonight for Lexington to be examined by the government surgeons. Dr. Boyd is one of Paducah's best known and most popular surgeons, and his friends here will be surprised to learn it. He will doubtless pass the examination, which several applicants failed to do.

This morning the committee telegraphed Gov. Bradley to change the time from 7 a. m. to 3 p. m., but it is probable that this will not be done, as the same special train will take on companies at Hopkinsville and other places.

The flag will be presented at the train, unless a demonstration is arranged for tonight. At the present writing nothing is known of the program, because the committee has not heard from Gov. Bradley relative to the change of time of their departure.

The band will accompany the soldiers to the train in the morning, it is likely, although this, too, seems to be in doubt.

The Williamsburg company arrived at Lexington and went into camp yesterday. Today all the companies of the Second regiment are expected to arrive. The Third regiment, to which Co. K belongs, will report tomorrow, and the First on Monday. The board of medical examiners yesterday passed on applicants for surgeons of the Second regiment. They accepted Drs. Farmer and Wain, but rejected Dr. E. L. Blackwell, of Henderson.

Mustering Officer Ballance wired Gov. Bradley to commission another man in Dr. Blackwell's place, but the governor refused to do so.

HAS NO AMMUNITION.

London, May 6.—The Paris correspondent of the Daily Mail says: "I hear on indisputable authority that five of the Spanish warships, including the battleship Pelayo and the fine cruiser Alfonso XIII, have not yet been supplied with ammunition. This was the cause of the delay in the sailing of the Cape Verde fleet, and will probably compel it to return to Cadiz."

A dispatch to Daily Chronicle from Cadiz, dated Tuesday, says: "The battleship Pelayo and the cruiser Alfonso XIII, have left their anchorage in the bay and gone to the dock yards. The cruisers Patriota and Rapido are preparing with all speed, and all are expected to sail together. Cadiz is overwhelmed by the news of the Philippine disaster, the lost crew numbering many Catalizans."

INVASION OF CUBA.

Washington, May 6.—It is said that the vanguard of the army which is shortly to invade Cuba will be landed upon Cuban soil today. At least 5000 are said to make up the vanguard, and they are expected to land not far from Havana, and will be met by officers of Gen. Garcia's army.

Preparations will be made for the army of 15,000 United States soldiers who are to follow, and plans will be perfected for attacking Havana from the rear, while several vessels of Rear Admiral Sampson's fleet will do duty in the harbor.

GERMAN PRESS WORRIED.

Berlin, May 6.—The excited interest the Germans are beginning to take in the ultimate fate of the Philippine Islands is betrayed by the newspapers.

The interests of the German possessions in the Western Pacific, part of New Guinea, the Bismarck Archipelago, the Solomon Islands and the Marshall Islands, all within a radius of perhaps 2000 miles from the Philippines, makes Germany's consent necessary, it is assumed here, to any disposal of the Philippines.

Germany would only agree to the transfer of the Philippines to another power, it is asserted, on condition that she received suitable compensation.

A great deal of irritation is sure to be engendered by the taking of the islands by the United States.

The Kreuz Zeitung says that if the Monroe doctrine means "America for Americans" it ought also to mean "For the Americans only an America."

A LESSON FOR EUROPE.
Cleveland, May 6.—Chauncey M. Depew was here this week attending the annual meetings of the Lake Shore and Nickel Plate railways. In speaking of the war Mr. Depew said:

"Now that we have engaged in war, I believe it should be prosecuted with vigor worthy of a better opponent. The contest should be made short, sharp and decisive, not solely with a view to a speedy victory over Spain, but because of the object lesson it would afford European powers. They will respect us more if they see that when we engage in a fight we are a united people, with but one end in view, and that the upholding of our national honor."

"I believe that the friendship of the English people for us, which has been so cemented during the present crisis, will result in something more than a mere understanding between the two nations in the future. It would be a glorious alliance—that of the two great Anglo-Saxon races standing together for humanity and peace."

SPAIN'S LATEST.
London, May 6.—A remarkable and mysterious attempt to influence public opinion in London, through circulars distributed in the streets during the busiest hours, began last evening. While the theaters were empty, many men were employed in handing out doggers of yellow paper, with large headlines, reading:

"Why the United States is making war upon Spain."

Under this heading were extracts from the remarks recently made by Edward J. Phelps, former United States minister to Great Britain, and who from a legal standpoint, expressed the opinion that the United States was not justified in going to war with Spain. These extracts were accompanied by quotations from alleged pro-Spanish newspapers, printed in America, and pro-Spanish papers published in Great Britain.

Up to the present it has been impossible to ascertain who is financing this street propaganda.

BRYAN GOT LEFT.

Washington, May 6.—The free-silver congressman who have been swarming to the white house to ask the appointment of William Jennings Bryan as a major general of volunteers received a positive statement from the president yesterday that he would not grant the request. Mr. McKinley stated that he could not for a moment consider the appointment to such positions of men who had no military experience.

MURDEROUS NEGRO.

Riddled With Bullets Today by an Angry Mob.

New Orleans, May 6.—A negro this morning killed two policemen who were attempting to arrest him. He was captured by a mob and riddled with bullets.

London, May 6.—A dispatch from Rome to the London Chronicle says that the Vatican is considering a request made by the Spanish bishops for authorization to sell part of the treasures of the churches to aid the government in meeting the expenses of the war.

JAPANESE COLOR PRINTS.

Wonderful Posters Produced in the Orient—Impressions on a Spectator.

Whoever thinks that Posterland was originally situated in Egypt should take a look at the Japanese color prints exhibited in the library of the Drexel institute, and be convinced that it was discovered in picturesque Japan. Each of them is a handbill, an invitation to a dramatic performance, and shows some character or scene in the play, a quotation and the artist's signature, sometimes his seal as well, for Japanese artists at the end of the eighteenth century had regular seals. It is in reality block printing; the Japanese learned this color printing from the Chinese, who were adepts at it 2,000 years ago. To the ordinary person it would seem that such a handbill would be enough without going to the performance at all. However, after one got used to such treats one would probably pass scant time with them, even though they were marveled both as to drawing and color. A lovely one, for instance, shows pink skies, terra cotta trees and a maroon building. Now, isn't that picturesque? And the skies vary from a very timely military blue to odd black swishes, which might be the tails of so many horses belonging to the Valkyries themselves.

One is at a loss whether to try and make out what the plays which each print represents were about, or whether to be content with simple admiration. The thing that most strikes one about the men is their tempestuous expressions. Lots of us innocents have always supposed life in Japan altogether lovely, but in these prints not one is to be found who isn't enraged to the point of looking cross-eyed, save the one who is evidently cloping with a lady through a dark garden, where only a heathen god is watching. They nearly all carry swords and, what's worse, wield them with stunning force. They have fierce side whiskers, too, and wonderfully, uncomfortably high tops.

As for the gentler sex, a tragedy queen with wild black hair and a style as intense as Bernhard's own enchaines one. One is glad not to offend her, for she is just as bloodthirsty looking as the men. Here's the leading old woman, too, a capable-looking creature, who could look after two or three debutantes and still have time to pursue the even tenor of her own tempestuous way. The path of the flirtations young men in Japan must be exceedingly thorny, if all diuennas are like these. The maiden aunt is an inspiration compared with many to which our own stage treats us. And the sourette! What swirls of chrysanthemum-showered drapery! What tantalizing piquant perkiness! No wonder some women have adopted their enchanting little kimono for regalia. Their "Pompadour" looks everybody has appropriated. What damage must have been done in the heart of the gallery god, or whatever corresponds to him in the Japanese theater.

With all the men villains (we've only their looks to judge by) and all the other sex so many bundles of artistic curves, one ceases speculating as to what it's all about, and becomes lost in a study of their hands. Such hands! Each finger expresses volumes, and every little muscle and joint seems to tell a story of its own.

How different are the prints representing the China-Japanese war! A terrific man-o-war is plunging away through the beautifully green sea, leaving behind the wreck of a Chinese craft which looks like some grotesque sea monster. One snowy scene is so real that the falling flakes seem to have been peppered on after it was finished. What splendid vivid crimson flames soar up from each and every cannon! Pictures of war are inspiring, but war itself—that is too terrible. It seems odd to see the Japanese soldier in occidental dress, but there he is. One sees where some Chinese came with the red-haired Germans (in Japan red hair stands for a German) to offer peace. A proud day it must have been for Japan.—Philadelphia Record.

OLD GLORY FOREVER!

In Humanity's Cause Our Flag is Unfurled!

"The conflict deepens. On! ye brave, Now rush to glory!"—Cuba save. Brave patriots, all "your banners wave, And charge with all your chivalry."

O'er Atlantic's wave McKinley brave Sends our noble seamen, undaunted, true, A fair tale to save or find a grave, And plant a new "red, white and blue."

"What higher aim can patriot know? What destiny more grand? Than the soldier's fight for freedom's right, To free a suffering land!"

The Spanish Donas are long shall taste Our "Uncle Samuel's" pills. And freedom's bird shall proudly soar In the Pride of the Great Antilles.

In war, as in peace, it will pay everybody to go to
